PROFILE

Tech-savvy professional with over 2 years of experience in information systems, software development, and data analysis. Skilled in PHP and JavaScript, with a proven track record of developing custom systems that streamline operations and enhance workflow efficiency. Currently pursuing a Master's degree in Information Technology, I am passionate about leveraging technology to automate tasks, improve productivity, and deliver scalable solutions to real-world problems.

PROFESSIONAL EXPERIENCE

Clerk & Laboratory Aide
Visayas State University Infirmary, Baybay City | 2023 - 2024

- Spearheaded the development of a Radiology Information System (RIS), increasing patient documentation speed by 43% and improving workflow efficiency by 70%.
- Automated X-ray result encoding and printing, resulting in a 99% faster process and a 67% quicker release of results.
- Analyzed and processed large datasets for critical reports such as patient censuses, income summaries, and professional fee summaries.
- Delivered strategic recommendations based on data analysis, which contributed to improving hospital operations.
- Assisted over 2,000 clients with the registration process, ensuring smooth and efficient examinations.

Information Systems Analyst I
Philippine Statistics Authority, Cebu City | 2022 - 2023

- Developed an appointment system for managing trip ticket requests, reducing processing time by 20%.
- Enhanced system security by managing user access and credentials for over 50 personnel.
- Provided frontline technical support for Philsys system issues, resolving over 90% of issues within the first interaction.
- Led the logistics management for secure transport and deployment of over 30 registration kits and supplies, ensuring zero delays.
- Monitored system reports and documented technical issues, leading to improved system stability and reduced downtime.

Registration Kit Operator
Philippine Statistics Authority, Cebu City | 2022

- Ensured data integrity by verifying and validating client information during registration, improving data quality.
- Engaged with over 100 clients, offering guidance throughout the registration process.
- Troubleshot and resolved technical issues with registration kits, maintaining smooth system operations.
